LETTER OF TRANSMITTAL.

---

U. S. DEPARTMENT OF AGRICULTURE,  
BUREAU OF ANIMAL INDUSTRY,  
*Washington, D. C., May 6, 1911.*

SIR: I have the honor to transmit herewith a list of cattle imported for breeding purposes during the first quarter of 1911 for which certificates of pure breeding have been issued by this bureau. As this information is needed by breeders and importers and for the use of employees of the bureau, I respectfully recommend its publication. It is proposed to issue a similar list quarterly or at other suitable intervals.

The details of the examination of pedigrees and of the certification of pure breeding of animals offered for importation are in charge of the Animal Husbandry Division of this bureau, with the assistance of inspectors in the inspection and quarantine service at ports of entry and at other places as needed.

Respectfully,

A. D. MELVIN,  
*Chief of Bureau.*

Hon. JAMES WILSON,  
*Secretary of Agriculture.*

## CATTLE IMPORTED FOR BREEDING PURPOSES.

Beginning with January 1, 1911, the customs officials of the Treasury Department have required certificates of pure breeding, issued by the Department of Agriculture, for the free entry of animals imported for breeding purposes. This publication contains a list of the cattle imported for breeding purposes from January 1, 1911, to March 31, 1911, inclusive, for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 175 of this department. There were a few others imported during this period, for which certificates may be issued later, which will appear in a subsequent publication of this series. These are cases where certificates have been returned to the foreign breed societies for correction. There are a few others, the foreign certificates for which were not submitted to the Bureau of Animal Industry in time for this publication.

The numbers in equivalent marks, = =, denote the registration numbers of the Canadian National Records and the numbers in parentheses, ( ), denote the registration numbers of herdbooks across the seas. The department's number is the serial number of this department for each breed.

From January 1, to March 31, 1911, inclusive, there have been imported the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:

## CATTLE IMPORTED FOR BREEDING PURPOSES.

This publication contains a list of the cattle imported for breeding purposes from April 1, 1911, to June 30, 1911, inclusive, for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 175 of this department. This publication also contains the names of a few cattle imported prior to April 1 for which either the certificates had not been submitted to this bureau in time for the previous publication or the certificates which were submitted had to be returned for correction.

The numbers in equivalent marks, = =, denote the registration numbers of the Canadian National Records; and the numbers in parentheses, ( ), denote the registration numbers of herdbooks across the seas. The department's number is the serial number of this department for each breed.

This publication contains the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:

# CATTLE IMPORTED FOR BREEDING PURPOSES.

This publication contains a list of the cattle imported for breeding purposes from July 1, 1911, to September 30, 1911, inclusive, for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 175 of this department. This publication also contains the names of a few cattle imported prior to July 1 for which either the certificates had not been submitted to this bureau in time for the previous publication, or the certificates which were submitted had to be returned for correction.

The numbers in equivalent marks, = = , denote the registration numbers of the Canadian National Records, and the numbers in parentheses, ( ), denote the registration numbers of herdbooks across the seas. The department's number is the serial number of this department for each breed.

This publication contains the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:

## CATTLE IMPORTED FOR BREEDING PURPOSES.

This publication contains a list of the cattle imported for breeding purposes from October 1, 1911, to December 31, 1911, inclusive, for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 175 of this department. This publication also contains the names of a few cattle imported prior to October 1 for which either the certificates had not been submitted to the bureau in time for previous publication or the certificates which were submitted had to be returned for correction.

The numbers in equivalent marks, = =, denote the registration numbers of the Canadian National Records; and the numbers in parentheses, ( ), denote the registration numbers of studbooks across the seas. The department's number is the serial number of this department for each breed.

This publication includes the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:

## ANIMALS IMPORTED FOR BREEDING PURPOSES

FOR WHICH CERTIFICATES OF PURE BREEDING HAVE  
BEEN ISSUED BY THE BUREAU OF ANIMAL INDUSTRY.

CATTLE, 1912.

WASHINGTON:  
GOVERNMENT PRINTING OFFICE.  
1913.

## CATTLE IMPORTED FOR BREEDING PURPOSES.

This publication contains a list of the cattle imported for breeding purposes during the year 1912, for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 186 of this department.

The numbers in equivalent marks, = =, denote the registration numbers of the Canadian National Records, and the numbers in parentheses, ( ), denote the registration numbers of herdbooks across the seas. The department's number is the serial number of this department for each breed.

This publication includes the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:

## CATTLE IMPORTED FOR BREEDING PURPOSES.

---

This publication contains a list of the cattle imported for breeding purposes during the year 1913 for which certificates of pure breeding have been issued under the provisions of B. A. I. Order 186 of this department. As the tariff act of October 3, 1913, which became effective October 4, provides for the entry free of duty of all cattle, this bureau has not issued certificates of pure breeding for cattle imported since that date.

The numbers in equivalent marks, = =, denote the registration numbers of the Canadian National Records, and the numbers in parentheses, ( ), denote the registration numbers of herdbooks across the seas. The department's number is the serial number of this department for each breed.

This publication includes the following number of cattle for which certificates of pure breeding of the Bureau of Animal Industry have been issued:
